

Swine Flu

If you are in one of the priority groups
you can be vaccinated now

The effective and proven Swine Flu vaccine is available now.

The following groups in the population can be vaccinated first, as from **16 November**:

- Health workers
- Essential public services workers
- Expectant mothers
- Persons aged over 6 months with greater risk of complications

If you have any doubts,
consult your doctor.

REMEMBER, PREVENTION IS THE BEST MEASURE
